

Not Just Another Ocean Song
(Don't Leave Me in November)

This sounds like an ocean song
Where no rights can go wrong
And the day is as long as we can remember

The fog and the crowds are gray
It could be a perfect day
But I hear the ocean say: Don't leave in November

CHORUS Finding out about your past with doctors in the room
And dangerous names of nightmares we can't tame
August vanished with a flash like breeze and an old perfume
Windy claims from our prayers aren't to blame
Please don't leave me in November
Please don't leave me in November

Last year chasing girls
And deep green ocean curls
And the day was as long as I could remember

But my heart said come on in
Your soul is in my skin
So my world will crash within if you leave in November

CHORUS

BRIDGE When your life leaves me
I'll be thirty-three
It's not a month I'll see
Cuz you can't, can't leave me in November

This once was an ocean town
Tide is high but I am down
Now the day is as a long as I can remember

CHORUS
